

Navica App download instructions for iPhone

1. Tap the App Store Icon and then tap the search icon at the bottom of the screen. Search for Navica in the search bar.

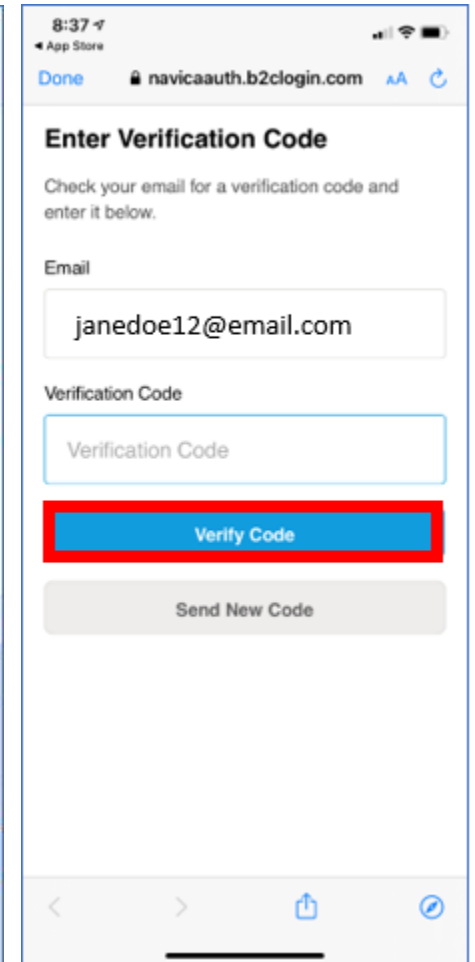

2. Tap GET next to the Navica icon and double click the side button to install. Or tap Install at the bottom of the screen.

3. Open the Navica app and tap Create Account. Then tap Agree And Continue. You will need to tap this twice.

4. Type your email in the box and tap Send Code. Type in the 6-digit verification code you received in your email and tap Verify Code.

5. Create a password that fits the password requirements and tap Set Password. Next You may scan your driver's license to auto-fill your information or tap Enter Manually and type in your information.
